'Installing MS DOS in DOSBox Transmission Zero

May 2nd, 2020 - I'm using MS DOS 6.22 in this article but it should work for other versions of DOS and for DOSes from vendors other than Microsoft. You might be wondering why you would want to do this. It's a fair question because DOSBox has its own DOS-like environment and supports the DOS API which allows many applications such as classic games to be run without the user needing to own a copy of DOS.
