Why Is Database Design so  
Important Reference com  
December 27th, 2019 - A  
good database design is  
important in ensuring  
consistent data elimination  
of data redundancy  
efficient execution of  
queries and high  
performance application  
Taking the time to design a  
database saves time and  
frustration during  
development and a well  
designed database ensures  
ease of access and  
retrieval of information'  
'A Pocket Business Guide  
for Artists and Designers  
100

August 6th, 2011 - The book  
is divided into five  
sections that will help  
artists and designers  
achieve success and make  
money from their work  
business promotion legal  
money and last thoughts  
This essential resource is  
packed with invaluable  
information for all  
creative practitioners''10  
essential traits of a  
successful graphic designer  
October 23rd, 2015 - 10  
essential traits of a  
successful graphic designer

---

Written by Anthony Wood You won't get far in design if you don't have a love of art or an interest in the world around you Designers love to look beyond the surface of things'

**'Research for Designers  
SAGE Publications Ltd**

'From Ford to Intuit design  
skills leading to a new  
CNBC

January 11th, 2019 - I  
think what makes designers  
most successful is not just  
being able to visualize the  
product from a customer's  
point of view but being  
able to leverage the  
expertise of the people  
that work within the  
company they are in and  
bringing that to the  
customer said David Sherwin
