## **color vision tests procedures for testing color vision**

**February 1st, 2017 - one of the earliest  
methods used to test color vision was to  
pare the individual s color naming of  
everyday objects with that of a normal  
person this was the method employed  
by turberville 1684 and by several  
subsequent investigators dalton 1798  
gave a detailed description of his own  
perceptions and those of his brother  
both protanopes and of some 20 other  
persons"color blindness ishihara vision
