Illegal Logging Costing Nations Billions

World Bank Story by David Fogarty SINGAPORE

Illegal logging is threatening the livelihoods of millions of the world's poor, robbing governments of billions of dollars in revenue and undermining legitimate logging businesses, the World Bank said on Saturday.

### **'Forest Law Enforcement and Governance World Bank**

April 29th, 2020 - The causes of illegal logging and other forest crimes are plex and often lie outside the forestry sector. Therefore, solutions will also differ. Weak governance, including unclear or nonexistent policies or legislation and their enforcement on the use of forest resources, is a key issue.

### **'Understanding effects of corruption on law enforcement and**

April 29th, 2020 - This also means that illegal actors who are able to pay can bypass apprehension or prosecution. In Cameroon, for example, the suspension of small-scale logging licences was found to

---

*have negative impacts on the livelihoods of small scale loggers because the price of bribes to law enforcement increased Cerutti et al 2013'*

### **Illegal Logging Collusive Corruption and Fragmented**

February 3rd, 2020 - This affinity is particularly relevant in the context of Indonesia where illegal logging is rampant and corruption is entrenched The Ministry of Forestry in Indonesia estimates for example that Indonesia is suffering a financial loss of US 3 7 billion annually due to illegal logging and exports NRM Headline News 2003'

### **'Illegal logging definition of Illegal logging and**

April 22nd, 2020 - Illegal logging contributes to deforestation and by extension global warming causes loss of biodiversity and undermines the rule of law These illegal activities undermine responsible forest management encourage corruption and tax evasion and reduce the income of the producer countries further limiting the resources producer countries can invest in sustainable development'
