How can a base be used to
neutralize an acid Answers
com

May 3rd, 2018 - To neutralize
an acid with a base you must

put the base in the acid
that will give the substance
pH of 7 which is
neutral''

EXOTHERMIC and ENDOTHERMIC REACTIONS Doc

Brown

May 2nd, 2018 - 2 Reversible
Reactions and energy changes
If the direction of a
reversible reaction is
changed the energy change is
also reversed For a
reversible reaction the
energy released in the
exothermic reaction is
numerically equal to the
heat absorbed in the reverse
reaction''

Experimental methods for determining enthalpy

May 2nd, 2018 - This page
describes experimental
methods for determining
enthalpy changes of chemical
reactions e g using a simple
calorimeter and a bomb
calorimeter Treatment of
experimental results is
covered i e how to calculate
the molar enthalpy for the
reaction under

investigation''
