'AWS A5 4 E309L 16 The
Welding Warehouse Inc
October 6th, 2018 - E309L

16 E309 309L gives a weld deposit similar to 309 with reduced carbon levels 0.04 maximum that offer increased resistance to intergranular corrosion. Type 309 309L is ideal for joining stainless steel to themselves or to carbon or low alloy steels. Alloy 309L is preferred to Alloy 309 for cladding over carbon or low alloy steels as well as for dissimilar joints which undergo heat.

'AWS A5.4:1992 Stainless Steel Electrodes Welding
June 1st, 2009 - A9.10.4 Fully austenitic E316L weld metal appears to be the preferred composition because of the ease in achieving ferrite free weld metal while compositionally conforming to AWS A5.4 and retaining crack resistance'
